Common Sense Safety Message

Most accidents are caused by the failure to use common sense.

Here are some common sense safety rules:

- * Treat safety as an important part of your job
- * Keep your full attention on what you are doing
- * Know and follow the company safety rules
- * Use the required protective equipment
- * Remind your coworkers about safety procedures and equipment
- * Pay attention during safety training programs and meetings
- * Know what to do in case of an emergency
- * Ask questions when you don't understand
- * Don't fool around or show off on the job
- * Don't let anger, frustration or personal problems interfere with your work
- * Don't ignore a safety hazard
- * Don't become overconfident with jobs you've done many times
- * Don't use equipment in ways they were not intended
- * Don't get pressured by others into ignoring safety procedures
- * Don't take shortcuts on the job
