

Safety Message of the Day for IMEA Members

Arc Flash Precautions: A Review

Proposed Changes

1. Currently clothing worn under FR must be made from 100% cotton, 1 proposed change has been referred to as "FR Neck to Toe" which means nothing can be worn under the FR unless it has an FR rating.
2. Arc rated face shields. There's been an increase in arc flash and arc blast face injuries in recent years. We suspect there will be changes the the OSHA standards requiring the use of face shields.
