

## Safety Message of the Day for IMEA Members

### Work Zone Speeding Alert

INDOT is now issuing fines to drivers caught speeding through construction zones using automated cameras. One of our members has already been cited — and the penalties can be steep. Please slow down and stay alert when driving through work zones!

Safety and your wallet depend on it.

This is part of INDOT's "Safe Zone Pilot Program."

The cameras used are truck mounted and used when workers are present. The cameras are not set up for 24/7 monitoring but they are mobile.

Citations are issued by INDOT not law enforcement so they're civil fines but can still be costly!

If you're speeding, you're probably not paying attention and will miss the sign.

**We can't selectively choose what rules we follow!!!**
